Please arrive 10 mins early - help yourself to a hot drink of mulled wine (or even a cuppa) and a haybale, take in the views around you!

WHAT TO EXPECT:

After a warming welcome drink and treats by the campfire, we will each take a foraging bag and a pair of snips and explore the land at Wildstone. Taking inspiration from the local landscape, we will gather beautiful, texture-rich natural elements such as heather, wimberry foliage, dried grasses and birch twigs, which will be incorporated into our own unique wreath designs.

Lauren will give a demonstration and guide you through the process of crafting a lush, winter wreath, using traditional scented pine and spruce as a base, and adorned with your choice of natural and festive decorations.

- **Hot/cold drinks and snacks will be provided.**
- **There are 2 camping toilets on site**

WHAT TO WEAR:

Who knows what weather we'll get?...we all know what Glossop is like!

So be prepared and **dress warm**; you will be under the shelter while you are making the wreath and we will have open fires but there will be opportunities to explore the land and forage. **Please bring a waterproof jacket and sturdy shoes.**

PLEASE DRESS WARM AND WATERPROOFED! THIS IS AN OUTDOOR EVENT, BUT WE WILL HAVE FIRE PITS TO KEEP SOME WARMTH IN UNDER OUR STRETCH TENT.
